

Rapport

Responsiv:

1- in head i used the meta tag:

```
<meta name="viewport" content="width=device-width, initial-scale=1.0">
```

2- in navigation I used:

for all column classes when the screen less than 768px the width have to be 100% and the navigation displays block.

3- aktivitate.html i used the breakpoint to make the class of column divided to grid when the screen is more than 768px and to be 100% when it is less than 768px and the same in all pages.

SEO:

1- meta tags:

```
<meta name="keyword" content="förening, karlshamn, inkludering, aktivitate, samhälle">
```

2- link structure:

*internal links in the navigation and in form in medlem.html that links to formulär and the form in formulär links to tack.html, the kontak.html links to email.

3- external links in footer some:

- blog links to <http://lissalivsrums.se/inkludera-i-karlshamn/>
- links to social media some facebook and instagram

4- user friendly content:

- I used the keywords in the title.
- the title is readable.
- all the images with alt text.
- paragraphs are not more than three rows.
- headings h1 and h2 is used.

5- keywords:

- inkludera, karlshamn is used in heading and content.
- förening, aktivitate is used in content.
